EDUCATION

B.E, Computer Science & Engineering SATHYABAMA INSTITUTE OF SCIENCE AND TECHNOLOGY, CGPA – 7.74/10	2021 - 2025
12th – HSC State Board, 73.3% (Sree Iyappa Mat. Hr. Sec School)	2020 - 2021
10th – SSLC State Board, 65.4% (Sree Iyappa Mat. Hr. Sec School)	2018 - 2019

SKILLS

Technical Skills - Java, MySQL, Flutter, Spring Boot.

Tools/Software - Git & GitHub, Postman, Docker.

Web Technology – HTML, CSS, JavaScript.

INTERNSHIPS

AlgoxFusion Private Limited- Software Developer Intern	July 2023
- Developed and deployed real-time chat features using Flutter and Firebase Firestore, improving communication efficiency for end-users by ~20% faster message delivery. - Integrated secure user authentication, message storage, and push notifications, ensuring 99.9% message reliability and seamless cross-device access. - Designed and optimized responsive UI with custom animations and dark mode support, enhancing user engagement and boosting user retention by ~15%.	

PROJECTS

Bank Management System using MYSQL and Java	July 2024
- Built a banking system using Java and MySQL, supporting user registration, secure login, and credit/debit transactions. - Used JDBC and modular Java classes to handle account logic, password updates, and transaction history. - Applied SQL joins, subqueries, and group functions to generate real-time reports and summaries. - Used flag-based control logic in Java to route multiple banking operations through a unified method, reducing redundancy and improving code clarity. - Designed MySQL stored procedures to handle transactions and account updates efficiently, streamlining backend operations	
Speed Control System with Emergency Override	April 2025
- Developed an Arduino-based system to automatically regulate vehicle speed in restricted zones, reducing chances of over-speeding by ~20%. - Utilized RF transmitter and receiver modules to detect speed-limited zones with ~95% accuracy. - Integrated sensors and microcontroller logic to control throttle and braking mechanisms, improving real-time response by ~18%. - Implemented an emergency override feature for authorized vehicles (e.g., ambulances, police), ensuring flexibility without compromising safety. - Aimed to enhance road safety by minimizing human error and supporting compliance with traffic regulations.	

CERTIFICATIONS

- SQL and Relational Databases 101** certification course from Future Skill Prime.
- Oracle Certified Foundations Associate** Certificate course from Oracle University.
- Cisco Networking Academy** Introduction to Network Security and its essentials.
- TATA Forage** GenAI Powered Data Analytics Job Simulation.
